ARGENTUM BIŻUTERIA

Jewellery from a workshop
that has run since 1920.

2026 COLLECTION

ARGENTUM BIŻUTERIA · MANUFACTURER SINCE 1920 · POLAND

MANIFESTO

A hundred years in one place.

In 1920 Władysław Stachurski opened a small bronze and silver workshop in the centre of Łódź. Five generations later we design and manufacture jewellery in Poland — from the first sketch through modelling and casting to electroplating and quality control.

We do not outsource production. That is why we know everything about every piece: the metal it is made of, what it weighs, how it will behave after a year of wear.

OI

Earrings

The smallest gesture, the greatest difference. Studs, hoops and drop forms that carry a look from morning to evening.

Silver earrings with stones — Olya

REF. 7100360

Silver earrings with a hanging natural pearl

CRAFT

Everything under one roof.

Our own electroplating department lets us rhodium-plate, gild with 24-karat gold and oxidise without intermediaries — both silver and brass. Finishes are agreed individually for each batch: the same model can be cool and silver or warm and golden.

Sterling silver 925 and brass, natural and cultured pearls, cubic zirconia, onyx, malachite, mother of pearl, anodised titanium. We choose materials so a piece still looks right years later.
